Forecast

- Open Forecast
- Click to begin a new forecast**
- New Forecast from Template
- New Forecast from External Sources

Consolidations

- Open Consolidation
- New Consolidation

Setup options

To create a forecast enter your details and **Click Build Forecast**.

Forecast Details

Enter your **Company Details**. The **Company Name** appears at the top of your reports, followed by the **Report Subtitle**. **Description** notes can be useful for your reference or other users of your forecast.

Forecast Options

Enter the **Tax Methods** and the **Report Currency**. Set **Annual Profiles** if needed. Profiles can be applied to specific **elements** and can be changed later in the **Element Editor**.

FORECAST SETUP

Forecast Details

Company Name:

Report Subtitle:

Description:

Forecast Range

Number of Years:

Forecast Start Date:

Financial Year Start Month:

Sep 18 ----- **Jun 20**

Jul 2019, 1st Financial Year 22 months in Total

Forecast Options

GST/VAT Method: Rate: %

Income Tax Method:

No Image

Heading	Jan	Feb	Mar
Data 1	0.000	0.000	0.000
Data 2	0.000	0.000	0.000
Data 3	0.000	0.000	0.000
Custom	0.000	0.000	0.000
Total	0.000	0.000	0.000

Add Logo

Forecast Range

Set the length of your **Forecast Start Date*** and the **Financial Year Start Month**. **Castaway** allows you a maximum of **15 years** per forecast (This can easily be extended once the file has been created).

Report Appearance

Choose an existing **Brand** or the **Default** (to create a new **Brand** later in **Report Design**). Select a **Report style**. Add a **Forecast Logo** or one of the Report Navigation **Logo Packs**.

*** Remember!** The Forecast Start Date is the start date of your file. If you want to include historical Actuals, you will need to set your Forecast Start Date to the first date of your Actuals.
